Patient Prescription Procedure for HXT Wrist ExteFlex Custom Orthosis

Prescription Procedure

A prescription from your physician is necessary when filing a claim for the Allsport HXT Wrist on health insurance.

The prescription needs to be written specifically for the HXT ExteFlex Custom Wrist Orthosis, along with the notation:

Dispense As Written (D.A.W.), No Substitutions.

Clinic notes or an added notation of medical necessity or medical condition to be treated with the HXT is necessary in validating the need for the orthosis. This diagnosis will be determined by your physician, specific to your current medical condition.

Custom Measurements and Billing of Health Insurance

Custom sizing of the HXT Wrist is determined by measurements taken of the patient's hand, wrist and forearm, listed on the patient data forms, available from our office.

If your physician's clinic has a DME or Physical Therapy department, and can bill insurance for custom bracing products, please have someone from the clinic contact us for details.
